OUTER CASING SERIES

# Alu-K light Series

Housing: Brake Shifting  
 Construction: SP SP  
 Outside Diameter: 5.0mm 4.0mm  
 Description: Aluminum, Lightweight, upgrade to Kevler series, 50% lighter than traditional linear strand housing  
 OEM Packing: 30M/50M/100M  
 AM Packing: 2100mm/KIT

# Alu-F light Series

Housing: Brake Shifting  
 Construction: SP SP  
 Outside Diameter: 5.0mm 4.0mm  
 Description: Aluminum, Lightweight, upgrade to Alu-k series, 40% lighter than traditional linear strand housing  
 OEM Packing: 30M/50M/100M  
 AM Packing: 2100mm/KIT

Aluminum, low compression linear stands of steel are used to encircle the liner creating a compressionless ring.

## ➔ Instructions :

### 【 Single-color device 】

Apply the protector to the brake line by winding it around the cord.  
Adjust the protector to a suitable position near the frame in order to protect the paint on the frame.

### 【 Dual-color device 】 Make it colorful!

In order to create a more appealing and personalized look, combine 2 different colored protectors!  
Step one: apply the first protector to the cord.  
Step two: wind a different colored protector next to the first, making it more durable and colorful.
